

Introduction Cargolive AMS

There is a new kid on the block...Cargolive The Netherlands was founded in 2020 and is ready to grow in to the future with the support & knowledge of the Belgian Triple M office.

New Branch Office

As you probably know Triple M has been servicing the Dutch market for several years already out of Belgium and we have become a trusted agent for a large number of (inter-) national companies.

Although our Antwerp office is located only 25 km's from the Dutch border and only 160 km's from Amsterdam, we felt there was a need to open up a Dutch branch & waive the Cargolive flag.

This has resulted in opening up an office and the use of a full-service warehouse at Amsterdam airport.

Needless to state that COVID 19 has had a major impact on our expected growth in the Netherlands this year, but we have made use of this time to make sure we are ready for the future.
